

(3) In fluid milk products, products specified in paragraph (b)(1) of this section, and products processed by the disposing handler that are specified in paragraphs (b)(4) (i) through (iv) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products, products specified in paragraph (b)(1) of this section, and products processed by the disposing handler that are specified in paragraphs (b)(4) (i) through (iv) of this section, that are dumped by a handler. The market administrator may require notification by the handler of such dumping in advance for the purpose of having the opportunity to verify such disposition. In any case, classification under this paragraph requires a handler to maintain adequate records of such use. If advance notification of such dumping is not possible, or if the market administrator so requires, the handler must notify the market administrator on the next business day following such use;

(5) In fluid milk products and products specified in paragraph (b)(1) of this section that are destroyed or lost by a handler in a vehicular accident, flood, fire, or in a similar occurrence beyond the handler's control, to the extent that the quantities destroyed or lost can be verified from records satisfactory to the market administrator;

(6) In skim milk in any modified fluid milk product or in any product specified in paragraph (b)(1) of this section that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1139.15 and the fluid cream product definition pursuant to § 1139.16; and

(7) In shrinkage assigned pursuant to § 1139.41(a) to the receipts specified in § 1139.41(a)(2) and in shrinkage specified in § 1139.41 (b) and (c).

[58 FR 27905, May 11, 1993]

§ 1139.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1139.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim and butterfat, respectively, at each pool plant to the re-

spective qualities of skim milk and butterfat:

(1) In the receipts specified in paragraphs (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraphs (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product.

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator, or received from handlers defined in § 1139.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from handlers defined in § 1139.9(c), except if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and protein and butterfat tests determined from farm bulk tank samples, the applicable percentage shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and protein and butterfat tests determined from farm bulk tank samples, the applicable percentage shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the

quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk milk transferred to other plants that is not in excess of the respective quantities of skim milk and butterfat to which percentages are applied in paragraphs (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association or federation is the handler pursuant to §1139.9(b) or (c), but not in excess of 0.5 percent of skim milk and butterfat, respectively, thereof. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and protein and butterfat tests determined from farm bulk tank samples, the applicable percentage for the cooperative association or federation shall be zero.

§ 1139.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless both handlers request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computation pursuant to §1139.44(a)(12) and the corresponding step of §1139.44(b). The amount of skim milk or butterfat classified in each class shall include the assigned utilization of skim milk or butterfat in transfers of concentrated fluid milk products;

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to §1139.44(a)(7) or the corresponding step of §1139.44(b), the skim milk or butterfat so transferred shall be classified so as to allo-

cate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to §1139.44(a)(11) or (12) or the corresponding steps of §1139.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or transferred in the form of a bulk fluid cream product from a pool plant to another order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred or diverted in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I,
